Recessions Shown, Ranging From Fractions to Points, in Leading Stocks.

TOTAL OF GOLD IMPORTS PLACED AT \$61,500.000

Partial Recoveries Noted, But Undertone Inclined to Heaviest. Iron and Steel Review.

NEW YORK, June 17.-There was little etfic comment. Prices of eding stocks receded from substantia ractions to a point, under the adverse in e of the Mexican and railroad labor ons, while certain specialties, nota bly Mexican Petroleum, New York Air-General Electric, Pressed Steel Car eral of the other motors, were from these levels occurred before the but the undertone was inclined to heaviness. Total sales of stock

ited to only 220,000 shares.

amounted to only 220,000 shares.

Inflow of gold from Canada amounted to \$4,700, bringing the total movement from across the border up to \$61,500,000, and another small export of the metal to Cuba, presumably in connection with the sugar industry, was reported.

Mercantile agencies noted further gradual contraction of business in certain lines, but trade in general is booked up for many months to come. Prices of various products, following the tendency of fabricating iron and steel, are inclined to ease off. There was a further shading of exchange rates on Berlin and Vienna, a condition naturally attributed to the defeat of the Austrian forces in the Russian drives, Sterling and francs were virtually unaltered with light dealings.

Mexican situation is again a critical one, but seem hopeful of a settlement ures. Securities of foreign companies operating in that republic denoted greatest depression in the lower quo-tations of the final session of the D

Interruption of conferences between the railroad managers and their employes was reflected in heaviness of rails, but this was partly neutralized by the restoration of dividends to the rates existing before the outbreak of the European war by Louisville and Nashville and several less important lines.

lines.

The stock market was wholly in the hands of the speculative element, whose operations were naturally restricted by impending uncertainties. Further liquidation of specialties was observed, except in sugars, which were notably strong.

Heaviest Orders for Steel Booked on Foreign Account

NEW YORK, June 17 .- The largest tonnage of orders coming to the steel

mills this week has been for foreign account. Russia and Italy are placing the heaviest contracts, but France, Great Britain and Japan are distributing some orders with additional substantial contracts developing. Russia has virtually closed for 200,000 tons of sixty-seven and one-half-pound rails, and for 200,000 tons of barbed

wire; about three-fourths of this tonnage will be furnished by the United States Steel Corporation.

Russia is still in the market for cars, locomotives and car wheels. France has ordered 3.000 more cars in Canada and the Dominion works are asking for prices on 5.000 tons of steel plates, and on 5.000 tons of setel plates, and on 5.000 tons low phosphorus pig iron to cover a portion of the foreign order. Italy has closed for 27.000 tons more Beasemer pig iron with American, interests and is still in the market for steel, Japan has purchased 2.000 more constalled by the Companies, cash reserve in vault, \$11,865, \$63,800.

Bailway Equipment Active.

Domestic railroads are showing a little more interest in equipment orders, there being inquiries in the market for 13,400 cars, 40,000 to 50,000 tons of rails and several substantial inquiries for track accessories. The merchant car builders have taken orders for repairs to 1,500 cares. \$200 center sills and for repairs to 1,500 center sills and for repairs to 1

inquiries for track accessories. The merchant car builders have taken orders for 245 cars, 290 center sills and for repairs to 1,500 cars.

There was greater activity in structural work than at any time in several weeks. The fabricating shops report orders for 20,000 tons of structural shapes, including 6,000 tons for the Keystone Steel and Wire Company's plant at Kenosha, Wis.; 2,500 tons for the Keystone Steel and Wire Company's open hearth plant at Peoria, Ill.; 2,100 tons for a viaduct at Pottstown for Worth Brothers; 1,200 tons for the Sun Shipbuilding plant at Chester, Pa., and 1,400 tons for railroad bridge work.

The Bridge Builders' Society has just reported orders taken in May amounting to 170,000 tons, exceeding the toning to 170,000 tons or taken to take the taken in the taken at the taken at the taken at any time in several work than at any time in several taken in the taken in the taken at the tak

BY I. A. FLEMING. lection system of the federal reserve go on record in the matter, it is under tionably due to the loss of collection through the medium of the various re tion among bankers to the free collec will make their plan effective July 15.
All over the country bankers, and especially those in the smaller towns and

cities, are offering objections, based on the loss of exchange charges, which in in the telling. bank earnings. But the smaller banks are not alone in their objections. In the largest cities the objections are just as strong, this because of the necessity of smaller banks maintaining balances as a quid pro quo for the collection charges on checks sent to the smaller institutions. In the central reserve cities the nait would require nearly a century to pay back to the preferred shareholder

CONDITION OF TREASURY.

The condition of the United States Treasury yesterday: Net balance in general fund, \$140,-On the occasion of the eighty-fifth anniversary of his birth Owen T. Edgar of the Columbia National Bank was presented with a handsome floral remembrance by the employes of the

COTTONSEED OIL.

Mr. Edgar was born June 17, 1881, and is one of the comparatively few survivors of the Mexican war, having served on the sloop Potomac in the bombardment and capture of Vera Crus, March, 1847.

He has been connected with the bank since the opening of its doors, February 1, 1887. In spite of his advanced years, Mr. Edgar cheerfully and actively performs his duties at the bank, and only on the rarest occasions has he heen forced by sickness to be absent from his work.

More than seventy per cent. of the exports of Jamaica come to the United States.

COTTONSEED OIL.

NEW. YORK, June 17.—The cotton-seed oil market was moderately active and irregular. Old crop positions held stendy on small offers and light stocks, while new crop deliveries were easier under liquidation and southern selling. Closing prices were 3 points higher to 6 net lower. Sales, 3,800 barrels.
